

EDUARD PICHARDO ROCHET

Software Engineer

Dominican Republic | eduarro2001@gmail.com | +1 829-673-6905 | LinkedIn | Portfolio

PROFILE

Software engineer with over 3 years of experience in the design, development, and implementation of scalable full-stack applications. Specialized in the JavaScript/TypeScript ecosystem (Node.js, NestJS, React) with solid experience in Java (Spring Boot) and C# (.NET). Proven ability to design robust solutions, optimize application performance, and collaborate effectively in fast-paced agile environments.

WORK EXPERIENCE

Newtech S.R.L. | Dominican Republic (Remote) Sep 2021 – Present
Software Engineer

Project: Financial Services Platform (Confidential Client) | Mar 2024 – Present

- Designed and developed a robust backend service using NestJS and PostgreSQL, processing high-volume financial transactions with 99.9% uptime.
- Designed a secure file management system by integrating AWS S3, enabling efficient storage and retrieval of sensitive client documents.
- Created a dynamic and responsive frontend interface using React.js and Vite, improving data visualization and user interaction speed.
- Managed project workflow using Jira, Git, and GitHub, ensuring on-time delivery of key features in sprint-based cycles.

Technologies: NestJS, PostgreSQL, AWS S3, React.js, Vite, TypeScript, Git, GitHub, Jira, npm, pnpm.

Project: Telecom Operations Solutions (Client: Verizon) | Sep 2021 – Mar 2024

- Designed and maintained full-stack features, reducing average ticket resolution time by 20% using Java 17, Spring Boot, and React.js.
- Improved code quality by implementing rigorous code review standards and increasing unit test coverage with Jest by 30%.
- Optimized complex SQL Server database queries, resulting in a 15% reduction in application response time.

Technologies: Java (8, 17), Spring Boot, Maven, React.js, JavaScript, TypeScript, SQL Server, Jest, Git, Jira.

Naxmek Business S.R.L. | Dominican Republic (Remote) May 2023 – Sep 2023
Backend Engineer (Contract)

- Developed and maintained RESTful APIs for business management using C# and .NET Core.
- Implemented data access layers with Entity Framework Core to interact with SQL Server.
- Wrote and maintained a suite of unit tests with xUnit to validate API functionality.

Technologies: C#, .NET Core, Entity Framework, SQL Server, xUnit, Git, GitLab.

XpertCode | Dominican Republic (Remote) Feb 2021 – Sep 2021
Software Developer Intern

- Developed an API endpoint using Node.js and NestJS for web scraping to validate government tax identifiers (RNC/NCF).
- Contributed to UI with Vue.js and Nuxt.js, developing reusable components that improved efficiency by 40%.
- Designed and managed the PostgreSQL database schema ensuring consistency and scalability.

Technologies: Node.js, NestJS, Vue.js, Nuxt.js, PostgreSQL, TypeScript, Web Scraping, Jest, Git.

SKILLS

Languages: TypeScript, JavaScript, Java, C#, SQL, HTML, CSS/SCSS

Backend: NestJS, Node.js, Spring Boot, .NET Core

Frontend: React.js, Vite, Vue.js, Nuxt.js

Databases: PostgreSQL, SQL Server, Oracle DB, MongoDB, MySQL

Tools: Git, GitHub, GitLab, Jira, Docker, AWS S3, npm, Maven

LANGUAGES

Spanish: Native
English: Highly proficient
